Supervising Nurse, Hemato-
Oncology

*How we became "an unofficial" magnet
hospital for nurses seeking to train and
work in pediatrics*

Webinar Description: Challenges recruiting and retaining nurses are nearly universal. This webinar will explore two different experiences creating "magnet" hospitals for children's nurses, one via official recognition and one through their own unique experience. This is the second in a series of ECHO Nursing Grand Rounds that will focus on different nursing challenges including clinical care, leadership, education and training, and professionalism.

Who should attend: Staff nurses, nurse leaders, human resources, and other professions involved in recruitment and retention of nurses. For more information contact Jennifer.mcintosh@sjd.es.
